- Cuts up to 730mm x 730mm sheet size
- Hydraulic clamp and blade drive
- Adjustable Clamp pressure
- 0.1mm cut accuracy
- Fully programmable
- 100% European manufactured

Product Details:

The Grafcut 73H boasts many features usually found on guillotines in a much higher price bracket, including infra-red cutting light beam and colour touch screen program unit. Robust design and quality engineering allow cutting accuracy of 0.1mm on stacks up to 100mm and a minimum cut depth of 30mm (60mm with false clamp)The Grafcut 73H features a maximum cutting format of 730x730mm and a fully hydraulic blade and clamp system with adjustable pressure.
The 73H is supplied with side tables as standard and is available with optional air table for ease of stack handling.

Manufactured in Europe by Grafcut, who have been manufacturing guillotines and graphic equipment for over 30 years.
