Product Details:

The "must have" guides for designers, printers and color decision makers – 1,867 colours

PLUS SERIES FORMULA GUIDES for selecting, specifying and matching solid PANTONE Colors feature 644 new colors included since 2010 - with 84 added just this year. The new colors for 2014 fill out our expansive palette with beautiful new Blushes and Pinks, and clean and vibrant new Blues, Greens and Violets. Graphic designers, pre-press professionals and printers now have a total of 1,761 color choices to unleash their passion and let their creativity soar!

PANTONE is the only internationally recognized color communication system. You can specify PANTONE Colors with confidence even if your manufacturing is half a world away.

All new colors have been specially formulated to print using a uniform ink film thickness, making them easily matched on press.The Pantone Colour Charts provide Ink formulations to aid printers in mixing colors. Includes color index, lighting evaluation tool and software to update your design applications with the latest colors . Set of two guides, coated and uncoated.

Walter Nash Comments

The PANTONE FORMULA GUIDE is the standard solid colour guide used throughout the Design & Graphics industry for communicating colour.

The NEW PLUS SERIES uses the same 14 basic colours of the Pantone matchine system, smae ink, same processes, brand new colours.

Use the Colour Index at the back of the book to help you find colour quickly.
