Varn® Enviroflex Pad

Cleaning pad for the effective removal of ink from anilox rollers

For Flexographic applications

Product Features

- The Varn® Enviroflex Pad is a unique cleaning product which has been specifically developed for use in conjunction with the Varn Enviroflex range of washes, to meet the tough demands of the Flexo printing industry.
- The Varn® Enviroflex Pad has been specially designed to penetrate deep into each microscopic anilox roller cell, and provide maximum cleaning performance on even the most stubborn ink residues. The bristle diameter is matched to individual anilox cell width (50 micron).
- The Varn® Enviroflex Pad is specially formulated for effective cleaning of CtP plates and intaglio gravure cylinders.
- A special absorbency layer is incorporated into the Varn® Enviroflex Pad to help retain solution during cleaning.

Advantages of Varn® Enviroflex Pad

- Each fibre strand efficiently penetrates an individual anilox roller cell.
- Each individual fibre is of comparable size to the diameter of an anilox cell.
- Non-damaging, flexible bristles.
- Also suitable for heavily soiled areas such as press frames, trays and rollers.
